WE WILL GUIDE YOU THROUGH COMPLEX PROJECTS

The EU is an important economic factor with its procurement system. And a market with complex and dynamic framework conditions. Procedures, rules and procedures change quickly and place high demands on clients and potential contractors in equal measure.

Tendering procedures require a lot from all parties involved – it is important to always be up to date with regard to economic, technical and legal aspects. Often, questions of neighbouring fields of law provide additional impulses for the actual award procedure. Whether construction, supply and service contracts, concessions, competitions or PPP projects - we support you in every phase of the award procedure. In doing so, we accompany clients as well as contractors from all sectors.

Our advice starts with the preparation of tenders and bids, extends to the award of the contract, possible reviews and the execution of the contract. We see our task as avoiding or settling possible disputes as well as enforcing your claims. It goes without saying that we represent our clients before the public procurement review bodies, supreme courts, European instances and civil courts. Through the European locations of the Schindhelm Alliance, we also conduct such proceedings for you in other countries.

Advising clients

As a customer, you are subject to strict procurement mechanisms. In our experience, sound preparation with early and close coordination processes is the key to a successful, legally secure and economic award procedure. We accompany public clients in the structuring of tendering and construction projects, supplies and services, PPP models. Our aim is to avoid review procedures from the outset through the design of the tender documents. To this end, we localise areas of tension as early as possible and look for suitable solutions.

Advising of bidders

For you as a bidder, the preparation of the offer is crucial - already in this phase we are at your side with flexible and fast advice. We support you in creating the optimal strategic positioning for you in the award procedure without losing legal positions or compromising your chances of winning the contract.
